SUBJECT : E.O. 11652--Richard D. Mahoney (E 76-124)
REFERENCES : A. Initial Request dated 8 January 1976.
B. GSA Referral Letter w/att. dated 19 April 1976.
C. IPS Reply dated 26 July 1976.
D. Appeal Letter dated 15 August 1976.

1. Summary of Recommendations: Sustain the initial determination to deny the document in toto under provision 5(B)(2) of E.O. 11652, as amended. Add provision 5(B)(3).

2. Background:

a. On 8 January 1976, Mr. Richard D. Mahoney requested a mandatory review of two classified CIA documents under provisions of Executive Order 11652 Section 5(C). The documents were in custody of the National Archives and Records Service (NARS) in the John F. Kennedy Library.

b. On 19 April 1976, the NARS referred Mr. Mahoney's request with copies of the documents to CIA. The Agency was asked to review the documents. If declassified, they were to be marked appropriately.

SECRET

If they remained classified, the Agency was requested to cite the applicable exemption category from Section 5(B) of the E.O. and a date when automatic declassification may be accomplished. They requested that the copies of the documents be returned with the Agency's response.

c. On 26 July 1976, IPS wrote to the NARS and returned copies of the documents. Both documents were found to require continued classification under E.O. 11652 Section 5(B). However, a sanitized version of Item #1 was found possible and was enclosed. NARS could advise requester of his right to appeal directly to CIA.

d. On 15 August 1976, Mr. Mahoney wrote to the CIA and appealed the decision to withhold from declassification Item #2 of his request.

3. Recommendations:

a. Tab B-2 contains TDCSDB 3/657,851 dated 12 November 1963. During the initial review, the document was denied in toto to requester under provision 5(B)(2) of E.O. 11652, as amended. The document is based on ACL-1832 dated 10 November 1963. I recommend that the initial determination to deny the document to the requester in toto under provision 5(B)(2) of E.O. 11652, as amended, be sustained and that provision 5(B)(3) of E.O. 11652 now be applied. The information is from a sensitive source with unique access to a political leader. If released, the information could cause embarrassment to the United States Government and exacerbate relations with a friendly foreign government.

b. During the DDO appeals review, a classification review was conducted. The document is properly classified and properly marked in accordance with the provisions of E.O. 11652, as amended. Due to the sensitivity of the subject matter, a meaningful sanitization cannot be made.

Dear Sir:

Under the provisions of Executive Order 11652, I would like to appeal your decision to withhold from declassification Document 2 of NIK-76-260.

Since I do not have any idea what is contained in the EDCS document, I can only address myself to the general position that the change of regimes in Portugal and the relinquishment of its African territories may well reduce the sensitivity of this document. Could the document be released in sanitized form?

Thank you for your consideration. I look forward to hearing from you.

SUBJECT : Executive Order 11652 Appeal--
Richard Doyle Mahoney (E 76-150)

REFERENCE : A. Initial Request from NARS dated
10 May 1976 with attachments.
B. IPS Reply to NARS dated 24 June
1976.
C. Appeal Letter, 23 September 1976.

1. Summary of Recommendations: Sustain the initial determination to deny in toto TDCSDB-3/656,740, an intelligence report originated by Paris Station dated 19 September 1955 under exemption 5(B)(2) of Executive Order (E.O.) 11652, and add the claim of 5(B)(3) of E.O. 11652.

2. Background:

a. Richard Doyle Mahoney, a member of the public who is identified as a researcher, initiated on 8 January 1976 through the John F. Kennedy Library a mandatory review of TDCSDB-3/656,740 in accordance with the provisions of E.O. 11652, Section 5(C). The request for review was forwarded to IPS via the National Archives and Records Service (NARS) on 10 May 1976.

b. IPS responded to NARS on 24 June 1976. Among other things, CIA denied in toto TDCSDB-3/656,740, which was Item 9a on the NARS request, on the ground of Section 5(B)(2) of E.O. 11652. The

E2 IMPDET

reply stated that the document had to remain classified indefinitely in order to protect intelligence sources and methods, and stated that release of segregable portions was not feasible. This was based upon a classification review by a knowledgeable officer [redacted] [redacted] dated 24 May 1976.

c. Mr. Richard Doyle Mahoney appealed this determination directly to IPS in a letter dated 22 September 1976. He specifically asked if it would not be possible to release a sanitized version of the document without jeopardizing national security.

3. Recommendations:

a. See the Appeals Review Forms for specific detailed recommendations.

b. A second classification review was requested by DDO/ISS/PICG. The second review was conducted on TDCSDB-3/656,740 on 22 December 1976 by Europe Division, which decided to retain the classification at Secret in accordance with E.O. 11652. Europe Division determined after review that there were foreign policy and liaison sensitivities which precluded downgrading TDCSDB-3/656,740, or sterilizing the document and releasing portions thereof, at this time. [redacted]

SECRET

c. Europe Division determined that it was also necessary to protect sources and methods. The source is currently active, and access to information in the document about the French security service was sufficiently limited that current disclosure of that information would in fact be likely to point the finger of suspicion at a relatively small group of potential sources, one of whom is source. Failure to protect this source would in turn jeopardize CIA relations with current and future sources.

d. The undersigned appeals and Litigation Officer agrees with this position.

4. OGC has not yet concurred in these recommendations.

2. Background:

a. On 22 July 1975, [redacted] wrote to CIA and requested all and any information concerning her maintained by CIA under the FOIA. She provided some biographic information and asked that any fees be waived.

b. On 15 December 1975, IPS/DDA advised DDO that two documents [redacted] had been referred to CIA by the FBI.

c. On 19 March 1976, IPS wrote to [redacted] and enclosed sanitized versions of four documents, three of which were DDO documents. Deletions had been made under (b)(1), (b)(3), and (b)(6) of the FOIA. Two additional DDO documents (those referred by the FBI) were denied in toto under the same exemptions. The exemptions were explained, the denying officials were identified by name, and [redacted] was advised of her right to appeal. [redacted] was also advised that FBI and INS originated material was being referred to the FBI and INS for their direct response to her request. [N.B. When IPS listed the four documents they erroneously listed the Deputy Director of Security as denying document 1 and Chief, Services Staff as responsible for documents 2, 3, 4, 5, and 6. In fact, the Deputy Director of Security was the denying official of document 4 and Chief, Services Staff for documents 1, 2, 3, 5, and 6. OGC should point out and correct this error in their letter to requester].

d. In an undated letter received by CIA on 26 April 1976, [redacted] appealed the decisions pursuant to subsection (a)(6) of the FOIA.

3. Recommendations:

a. Tabs B-1 thru B-3, B-5, and B-6 contain the documents constituting the DDO appeals review. Please refer to these tabs for my recommendations concerning individual documents.

b. As stated in Paragraph 3c above, I recommend that OGC, in their letter to requester, correct the previous error in identifying the deciding officials.

c. Document B-6 is a CSCI that transmits an accumulative machine listing to the FBI. This document is updated periodically and previous listings should be destroyed. Document B-5 is the updated and final machine listing for 1970 and supercedes document B-6 which should have been destroyed. I recommend that OGC advise requester that document B-5 supercedes document B-6 and contained the exact same information. I further recommend that IPS draw this matter to the attention of the FBI so future duplicate referrals may be avoided.

d. A classification review of the five documents listed in Tab B has been conducted. The documents are properly marked and properly classified in accordance with Executive Order 11652, as amended. All non-exempt information has been identified and recommended for release to requester.

e. The FBI and INS documents pertaining to Subject located in DDO files have been referred in writing to the respective agencies for their direct response to requester. (See Tab C).

4. OGC has concurred in these recommendations.

Dear Sir,

This is a request under the Freedom of Information Act as amended (5U.S.C. Section 552).

Briefly, my request is for information that may be in your files pertaining to a U.S. paramilitary organization known variously as the American Volunteer Group, American Voluntary Guerrillas or Alternate Voluntary Government (all AVG).

As you know, the amended Freedom of Information Act provides that if some parts of a file are exempt from release, "reasonably segregable" portions shall be provided. I therefore request that, if you determine that some of the requested information is exempt, you provide me immediately with the information that can be made available. Of course, I reserve my right to appeal any such decisions pertaining to "exempt" material.

I am prepared to pay reasonable costs for locating this information.

Since none of the statutory exemptions from the Freedom of Information Act's mandatory disclosure provision applies, access to the requested records should be granted within ten (10) working days.

In the unlikely event, however, that access is denied to any part of the requested records, please describe the deleted material in detail and specify the statutory basis for the denial as well as your reasons for believing that the alleged statutory justification exists in this case. Please also state your reasons for not invoking your discretionary power to release the requested documents in the public interest.

We also request that you waive any applicable fees since disclosure will meet the statutory standard for such waiver in that it would clearly be "in the public interest because furnishing the information can be considered as primarily benefiting the general public". 5 U.S.C.A. §552(a)(4)(A).

2. (U) Background:

a. Subject submitted a request under FOIA, on 22 March 1976, for any and all information the Agency

[redacted]
In the 20 July 1976 initial response, 24 newspaper clippings and one leaflet were released to him; two documents were denied.

b. On 23 August 1976 Subject appealed, requesting that further information be released to him on the group.

c. During the appeals review 11 additional documents were located and are included in the recommendations below. These documents were not considered during the initial review since they were not considered to meet the criteria for "records" extant at that time and they contained only incidental references to the subject of the request.

d. During the appeals review we were unable to identify any Air Force documents concerning the subject of this request. The requester should be told that this was apparently an error.

e. During the appeals review we were unable to identify any Department of State documents [redacted]
[redacted] Two State documents located, and possibly referred to in the initial response, do not concern [redacted]. The requestor should be informed that this was also apparently an error.

3. (C) Recommendations:

a. My specific recommendations are shown on the Appeals Review Form attached to each document. A classification review has been conducted and all documents are considered properly classified and marked in accordance with E.O. 11652, as amended.

b. I recommend that the two documents denied in toto under the initial review continue to be denied. One of them (Tab 3) could identify a still active and sensitive source. The other (Tab 4) was obtained through a sensitive operation conducted jointly by American and German authorities.

SECRET

SECRET

c. I recommend that portions of ten additional documents located during the appeals review be released. Exceptions (b)(1), (b)(3) and (b)(6) should be cited, as applicable, to the denied portions. Specific recommendations on each of these documents is reflected in the attached Appeals Review Forms. (Tabs 5-14).

d. One additional document located during the appeals review should be denied in toto, since it was received from a foreign liaison service. (Tab 15).

e. 88 FBI documents located during the initial review, but not referred to the FBI, should be referred to the FBI in writing for review and direct response. These documents are listed under Tab 16.

f. One Department of the Army document should be referred in writing to them for review and direct response. The title page and a description of the document are attached as Tab 17.

g. Five items from NSA have been referred to them by IFS for review. (Tab 18).

h. Several other documents turned up during both the initial review and the appeals review should be considered not responsive to the request since they refer to the generic term [redacted] but not to [redacted] as specified in the request. (Tab 19).

4. (U) [redacted] OGC has concurred in the above recommendations.

1. The initial request and subsequent appeal by [redacted] the Agency's correspondence to him, and the documents that pertain [redacted] have been reviewed and the documents involved are as follows:

- a. B-561, 11 August 1969
- b. HDMA-37509, 10 July 1969
- c. HDMA-37416, 23 June 1969

Items d. and e. do not mention [redacted] by name but are relative and are included for background information. The documents f., g. and h. did not become available until after the initial response [redacted] and therefore were not considered in that reply.

3.- On the basis of our review, we believe items a., b. and c. were properly exempted in accord with (b)(1) and (b)(3) of the FOIA and 53(1) of E.O. 11652. This was reported [redacted] in Reference d. on 30 May 1975.

Despite the detailed explanation provided [redacted] we note in his letter of appeal that he continues to seek a basis for the decision. With regard to these documents, we believe and agree that releasing them [redacted] would violate protection of sensitive sources and methods. The original denial is correct and should be upheld by the Information Review Committee.

4. Our review of the remaining three documents (items f., g. and h.) has resulted in the following recommendations.

a. II-559883. A passenger list which the Agency apparently obtained through foreign liaison [redacted] The nature of the information [redacted] does not permit segregating and releasing parts of the list [redacted] We believe the document is exempt under (b)(1), (b)(3) of the FOIA and 5B(1) of E.O. 11652.

b. MEXICO CITY 330. Provides the same information as RMEA-37509 and is, therefore, exempt under the same exemptions cited in the original denial, i.e., (b)(1), (b)(3) and 5B(1).

c. EX-3663. We believe certain parts of this 25-page document can be segregated and released [redacted] We agree with ITC on the selected portions that should be extracted for release (see attached marked copy). The balance of the document, however, must be considered exempt under (b)(3)(a) and (b)(6) of the FOIA.

5. In summary, it is recommended that the appeal be denied and the exemptions upheld on all the related documents as listed above except in the case of EX-3663. The selected portions should be sanitized and provided to [redacted] This recommendation has been discussed with [redacted] the OGC and [redacted] concurs with our decision.

MEMORANDUM FOR: Freedom of Information Officer, DDO

SUBJECT: [redacted]

REFERENCE: IRS 75-801 (Appeal)
Request for Agency documents

1. Attached are the three Agency documents listed in our memorandum of 14 May 1975:

a. Agency dispatch INMA-57416, dated 23 June 1969. This covering dispatch does not mention Subject by name; Subject's [redacted] was forwarded as an attachment to this dispatch. Two other attachments listing Subject's name [redacted] but the reference to his travel [redacted] had been incorporated into a Special Channel memorandum to the FBI, B-561, dated 11 August 1969 (paragraph 1d of our 14 May memorandum).

b. Agency dispatch INMA-57509, dated 10 July 1969 listed requestor as a traveler [redacted] [redacted] It also forwarded a copy [redacted] in an attachment which is not available here.

c. Special Channel Memorandum B-561, dated 11 August 1969 (see paragraph 1a above).

2. We believe that the above mentioned documents have been properly exempted in our 14 May memorandum under (b)(1) 5(B)(1) (foreign liaison, in this case, two sections of [redacted] liaison) and (b)(3). The material is not segregable for release, as the nature of the information and its format are such that the requester could determine that the information concerning him was obtained by the Agency through surreptitious access [redacted]

[redacted] Release would thus violate protection of sensitive sources and methods [redacted]
[redacted]

CONFIDENTIAL

CONFIDENTIAL

CONFIDENTIAL

3. One more document (not indexed into the 201 file or any other records of this office) has become available: Transmittal Manifest 599888, dated 28 August 1969. [redacted] This manifest lists Subject among passengers arriving [redacted]. No covering dispatch was used and no source is given, but the information may be presumed to have been provided by foreign liaison [redacted]. The material is thus probably exempt under (b)(1), 5(R)(1) (foreign liaison), and is certainly exempt under (b)(3) (intelligence methods). The format and the nature of the information do not make it feasible to segregate and release it. [redacted]

4. Attached is a segregable portion of internal Agency memorandum EX-3663, dated 24 October 1969. This document is a 25 page paper [redacted] and refers briefly to requestor, repeating in part the reference to requestor's travel as reported in HMMA-37509 (paragraph 1b above). [redacted] The excised portion of the document is considered exempt under (b)(3)(a) and (b)(6).

5. Also attached are copies of three additional Agency cables. [redacted] dated 24 June 1969, is referred to in HMMA-37509 (paragraph 1b above), and provides the same information (except for copies of passports). The reference cited in this cable, in turn, is Headquarters 876, dated 24 June 1969, which requested that names and passports of groups traveling [redacted] as the information was urgently needed for a paper being prepared for the White House. This cable in turn refers to [redacted] dated 23 June 1969, which explains the reason for the investigation of requestor's foreign travels. Although Headquarters 876 and [redacted] do not mention requestor by name they are attached for background information.

SUBJECT: [redacted]

REFERENCE: Request No. 75-1161

1. This Directorate maintains an official file on Subject. A review of this file and other records reveals the following information pertinent to Subject:

a. Twenty-nine FBI documents. See attached listing.

b. Five Agency documents (one cable and three dispatches) concerned Subject's travel and activities abroad and transmitted information [redacted]. One special channel (B) memorandum forwarded material provided [redacted] to the FBI. All of this material is considered exempt under FOIA, (b)(1), [redacted] and (b)(3).

c. Five Agency documents (one cable, three dispatches, and one field information report) referred to Subject's travels and activities abroad. The nature of the information could identify the source if it were released. One RL memorandum, one special channel (B) memorandum and one CSCI memorandum forwarded this information to the FBI. One CSCI memorandum forwarded a report to the U. S. Intelligence Community. All of this material is considered exempt under (b)(3), sources and methods and (b)(1) properly classified.

d. One agency dispatch forwarded information on Subject's activities abroad provided by a U. S. [redacted] source. This material is exempt under FOIA (b)(1) properly classified and (b)(3), sources and methods.

MEMORANDUM FOR: Chairman, Information Review Committee (U)
ATTENTION : Mr. R. G. Pean, Assistant for Information (U)
SUBJECT : FOIA Appeal [redacted] (F 75-1161) (U)
REFERENCES : A. Original Request dated 11 April 1975 (U)
B. IPS Response dated 19 February 1976 (U)
C. Appeal Letter dated 24 February 1976 (U)

1. (U) Summary of Recommendations:

- a. Release additional information from six DDO documents initially released in segregated versions.
- b. Release portions of eight DDO documents initially denied in toto.
- c. Sustain the denial in toto of 13 DDO documents.
- d. Release in toto nine news items and seven DDO documents discovered during the appeals review.
- e. Deny in toto 15 DDO documents discovered during the appeals review.
- f. Release segregated versions of two DDO documents discovered during the appeals review.

2. (U) Background:

- a. [redacted] on 11 April 1975 requested "any material or files the CIA may have collected and kept on my activities." The original DDO search surfaced 27 DDO documents, 29 FBI files, one FBI cable and three other-agency documents. IPS responded on 19 February 1976

releasing six of the DDO documents in segregated versions and denying the remaining 21. IPS advised [redacted] that the non-DDO documents were being referred to the originating agencies for direct response to him.

b. [redacted] appealed on 24 February 1976 requesting full release of all withheld data, and this triggered an additional search with the following results:

(1) Nine press items, not considered under earlier guidelines were located.

(2) As a result of an exchange of referrals between the DDO and the O/S, DDO accepted responsibility for five documents not located during the initial review--i.e. those covered by Tabs 28, 30, 32, 33 and 34.

(3) As a result of a Privacy Act request levied [redacted] on the FBI, the latter referred three DDO memoranda, per P 76-180. Two of these--CSCI 316/02677-67 and CSCI 316/05757-67--had not previously surfaced, but the third had been handled initially under Tab 19(H). We informed the FBI we would handle the former two in the appeal.

(4) In addition to the documents discovered per (2) and (3), 17 DDO documents were located through re-checking files and running down references. These additions have resulted in a total of 51 DDO documents being treated in this appeal, an increase of 24 since the IPS response, and nine press items.

(5) Four EX memoranda--895, 1070, 2187 and 3363--were referred to the FBI on 5 October 1976 for coordination regarding FBI information therein. The FBI replied on 28 October 1976 regarding portions to be withheld and exemptions to be applied.

(6) EJTA-48,789 dated 6 December 1965 (Tab 20) was referred to the US Air Force on 5 October 1976 for coordination regarding Air Force data therein. The Air Force responded on 29 October 1976 releasing its input.

(7) Three FBI files, in addition to those unearthed during the initial search, were discovered. DFC-02629 and DFB-89223 were referred to the FBI on 5 October 1976 for direct contact with the requester, and DBO-24857 was similarly forwarded on 26 April 1977.

(8) Three State Department documents were forwarded to the Bureau of Public Affairs on 1 October 1976. Two of these were State memoranda addressed to the CIA. Passport called on 26 October 1976 to advise that both had already been referred earlier. The third document--Tab 21(D)--was cleared for release by the same telephone call.

c. A classification review has been conducted on all DPO documents involved in this appeal, and all have been marked to reflect this review. In those cases where segregation of non-exempt data has been possible, such [redacted] has been identified and recommended for release. [redacted] In those cases where the documents have been denied in toto, meaningful segregation of non-exempt data pertaining to him has not been feasible.

3. (U) Recommendations: See Tabs 12-48.

4. (U) This memorandum has as yet not been coordinated with [redacted] the Office of the General Counsel.

Dear Mr. Wilson,

On August 7, 1975, I made a request to the CIA under the Freedom on Information Act for information, and documents [redacted] [redacted] By letter dated April 6, 1976, the agency agreed to release a newspaper clipping and three censored documents. The remainder of the requested documents were withheld.

I hereby appeal the agency's denial of my request for documents on the grounds that the exemptions relied upon do not apply to the requested documents.

In reviewing whether classified information [redacted] [redacted] is still properly classified and therefore exempted from disclosure under subsection (b) (1), you should be aware that the [redacted] formally disbanded three years ago.

In addition, I have reason to believe that the agency's initial reply is incomplete. In particular, the documents released by the agency contain only one publication [redacted]. The documents already released indicate that the agency was at least aware of other [redacted] publications. I hereby request a copy of any catalogue, list or index of these publications.

As to any documents or portion of documents which are withheld after this appeal, I hereby request:

- (a) specification as to whether the material pertains to [redacted] [redacted] or to the [redacted]
- (b) as to material withheld on the basis of exemption (b) (5), names of any other agency which initiated or received copies of inter-agency memoranda; and
- (c) as to the material withheld on the basis of exemption (b) (7) the authority for the law enforcement activities of the Central Intelligence Agency and the function of the investigation.

This Directorate has no file on [REDACTED]. Two Agency documents, however, were surfaced. These documents are denied under (b)(1), as being properly classified under E.O. 11652 and (b)(3) (sources and methods) FOIA. Release of the portion concerning Subject would probably identify the source to him. Thus, these documents must be denied in full.
